STAINS & LACQUERS

Oakworks® offers a good selection of finishes to complement your room. Stains allow the natural grain of the wood to show through and create depth. Lacquers are more opaque and have a more solid appearance. Upgrade your choice. (additional charge)

Padding

Our padding systems are all multi-layered to create the perfect balance between comfort and longevity. High quality, high density 100% polyurethane foams ensure longevity. Salon tops feature super high density lower layers in the seating area for excellent longevity. We do not use memory foams because these can cause ergonomic problems for therapists and do not enhance the comfort in comparison to our designs.

4" (10cm) Aero•Cel™

Oakworks® exclusive system features the best combination of softness, longevity and ergonomics for therapists.

6" (15cm) Aero•Cel™

When the ultimate in comfort is required, this is it. The same high quality foams as in the 4" system, just softer. Note: does increase the height of the tables by 2".

3" (8cm) Plush

This lower cost system creates a good balance between comfort and longevity.

We strive to ensure that the colors displayed on our product imagery (online and in print) are as accurate as possible. However, due to the limitations of printers, scanners, computer monitors, and other equipment, the colors may not be accurate. In order to receive an accurate representation of color, please contact us for a sample.
