WARNINGS

Improper use of this device can cause injury. Be sure to read all operating instructions prior to use.

Electrical Shock Hazard. The outlet strip is mounted inside the lower cabinet.

Excessive steam and or water can damage your trolley.

Top must be open when using stone warmer. Failure to do this may void all or part of warranty.

SYMBOL IDENTIFICATION

This symbol, when used in this manual and on product labels, represents a caution warning. Be sure to read and comply with all precautions and warnings.

This symbol, when used in this manual and on product labels, warns against an electrical shock hazard. Be sure to observe and comply with all warnings.

This symbol, when used in this manual or on product labels, indicates a Protective Earth (Ground) Terminal.

This symbol when used in this manual or on product labels, warns that during transport there should be no stacking of containers.

This symbol, when used in this manual or on product labels, indicates that the product should be protected from moisture. The humidity specifications for Transport & Storage are listed in the back of this manual.

This symbol, when used in this manual or on product labels, indicates that information is given regarding the recommended temperature limits during transport and storing.

This symbol, when used in this manual or on product labels, indicates the date of manufacture of the device.

This symbol, when used in this manual or on product labels, indicates alternating current (AC).

This symbol, when used in this manual or on product labels, indicates direct current (DC).

This symbol, when used in this manual or on product labels, indicates that instructional information is included. It should be read carefully and completely.
**PRODUCT DESCRIPTION**

- **Sliding top**
- **Adjustable/removable shelf & hardware.** (accessory items not included.)
- **Drawer with work surface/cover** (accessory items not included.)
- **Outlet Power Strip**
- **Control Access Panel**
- **Adjustable/removable shelf & hardware.** (accessory items not included.)

**WEIGHT**

- Weight: 100 lbs.
- Shipping Weight: 110 lbs.

**ELECTRIC**

Built in power strip, US standard; International Electrical available
OPERATING SLIDING TOP

To open, grab the top by the edges and slide them apart. There are internal stops in the slides that will keep the top from coming off the tracks.

To close, just slide the top halves together.

LOWER SHELF INSTALLATION & ADJUSTMENT

1. Open doors & insert pins into holes (4) at the level where the shelf is desired.

2. Place shelf onto pins & lower the shelf onto the cut outs on the bottom.

POWER STRIP USE

1. Turn off switch to power strip before plugging in or un-plugging any appliance.

2. Route power cord towards the rear of the trolley before plugging them into the power strip.
DIRECTIONS FOR USE

INSTALLING OPTIONAL HOT TOWEL WARMER

Open the cabinet doors & remove the adjustable shelf & pins.
Reverse installation instructions on page 4.

1. Set the warmer on the floor in front of the trolley.
2. Turn off the switch to the power strip and plug in the warmer. Turn on the switch to the power strip.
3. Set the warmer into the cabinet making sure the power cord is routed towards the back.
4. Your towel cabi is ready to use. Be sure to keep Trolley doors open when towel cabi is in use.

CAUTION
Keep Trolley doors open when towel cabi is in use.

CAUTION
Make sure the hot towel cabi door is closed properly and the drainage tray is emptied to prevent damage to the trolley.

Be sure to follow towel warmer manufacturer’s instructions.

INSTALLING OPTIONAL STONE WARMER

1. Slide the stone warmer into the hole in the rear of the trolley. The controls can face towards the front of the trolley.
2. Route the power cord out of the rear access and into the lower cabinet access hole.
3. From the front, open the cabinet doors and switch the power strip to the off position.
4. Plug the stone warmer into the power strip & switch the power strip back to the on position.

CAUTION
Do not operate hot stone warmer with Trolley top closed. Doing so will cause accelerated damage to the top surface. Top must be open when hot stone warmer is in use in order to release the steam caused by the stone warmer.

Be sure to follow stone warmer manufacturer’s instructions.

CAUTION
Make sure the hot towel cabi door is closed properly and the drainage tray is emptied to prevent damage to the trolley.
PRODUCT INFORMATION

OPERATING DRAWER WITH WORK SURFACE

Pull the work surface the whole way out to conceal your supplies and for extra working space.

Easily push the work surface the whole way back allowing access to the drawer and your supplies.

HOW TO CARE FOR YOUR TROLLEY

- Use only a mild solution of 4:1 diluted non-alcohol cleaner such as Simple Green®, 409®, Fantastik® or some other non-abrasive cleaner to wipe down the metal surfaces of the trolley. Apply with a damp (not wet) lint-free cloth. Be sure excess liquid does not drip onto, or into, any of the electrical controls or mechanisms. Be sure that the unit is unplugged before cleaning these areas. Wipe these areas carefully with a lint free cloth.
- The slides and casters of your trolley require no general maintenance or lubrication.
- The wooden portions of the equipment can be polished with any polish approved for wooden surfaces. Spray, or pour, the polish onto a soft cloth and be careful not to get it onto other surfaces.
- The table top material may stain if it is subjected to prolonged exposure of dark liquids and chemicals. If a mild solution does not remove the stain, the top will need to be re-surfaced by sanding and polishing with an approved compound of 1200 grit polish or finer.
- Water spills or condensation should be removed immediately from surfaces.
