

Marina

The Marina™ is the most comfortable wet table experience available. The 3" (8cm) plush padding with built in area for a hot water reservoir, coupled with the Aqueduct™ drain and battery powered lift systems, ensures your clients are safe and comfortable through the whole experience.

- battery powered lift with stainless steel base
- super comfortable top with recess for hot water warming source
- Aqueduct™ system directs water & materials directly to drain
- comes with wall mountable battery charger & extra battery

Aqueduct™
Recessed design captures 90% of the water & materials, at the same time offering better ergonomics with easy on & off for clients.

Waterproof foot control standard!

Water Resistant Face Rest System Available

Beautiful, Tough Construction
The powder coated stainless steel base and with waterproof finish are designed to take the punishment of the busiest wet rooms.

Battery Charger

Comes with battery charger & extra battery.
